11th Lecture for Experts

June 21, 2021

5.15 pm – 6.30 pm

**Prof. Karen Vousden,
Ph.D.**

**Chief Scientist, Cancer Research UK/
Group Leader, The Francis Crick
Institute, London, UK**

Prof. Vousden is known for her work on the tumor suppressor protein, p53, and in particular her discovery of the important regulatory role of Mdm2.

Dr. Mildred Scheel

* December 31, 1932 † May 13, 1985

German physician and wife of the 4th German Federal President. She founded German Cancer Aid in 1974. Her vision was to fight cancer at all levels and improve the treatment and well-being of patients.
